The information for ETA 9057 has been revised to adjust the number of small and large states to reflect the most recent data. This category is dependent upon the number of decisions the states issued during the prior calendar year, and varies from year to year. The ETA 9054 Report has been revised to correct a typographical error in Section A. The 3rd time lapse category reads 45-60 (days), but should read 46-60 (days). In addition, the information for ETA 9056 has also been revised and updated to reflect the most recent data. Similar to ETA 9057, ETA 9056 is dependent on the number of nonmonetary determinations reported in the prior calendar year, and varies from year to year.

The Secretary of Labor, under the Social Security Act, Title III, Section 302 (42 U.S.C. 502), funds the necessary cost of proper and efficient administration of each state UI law. The BTQ program collects information and analyzes data. The BTQ data measure the timeliness and quality of states' administrative actions and administrative decisions related to UI benefit payments.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or
